

PHASE V RESTORATION UPDATE

August 18, 2023

Hello!

The Tabernacle Restoration Committee continues to work through pre-construction tasks with the project manager, architect, and construction teams. The Tabernacle@mvcma.org email address will remain available to provide feedback or ask questions throughout the entire process. We will do our best to respond to questions received publicly in following communications, so that everyone has access to the same information.

All details provided here remain ***subject to change***. The Tabernacle Restoration Committee meets regularly with the project team and will continue to pass on relevant information as promptly as possible.

Schedule Highlights

2023

- Sept 4: Last day of public access inside Tabernacle.
- Sept 5: Mobilization activity begins.
- Sept 11: Installation of fencing, delivery of trailers, dumpsters, lumber and other building materials, and protection of trees begins.
- Sept 25: Construction activity, including demolition, expected to begin.

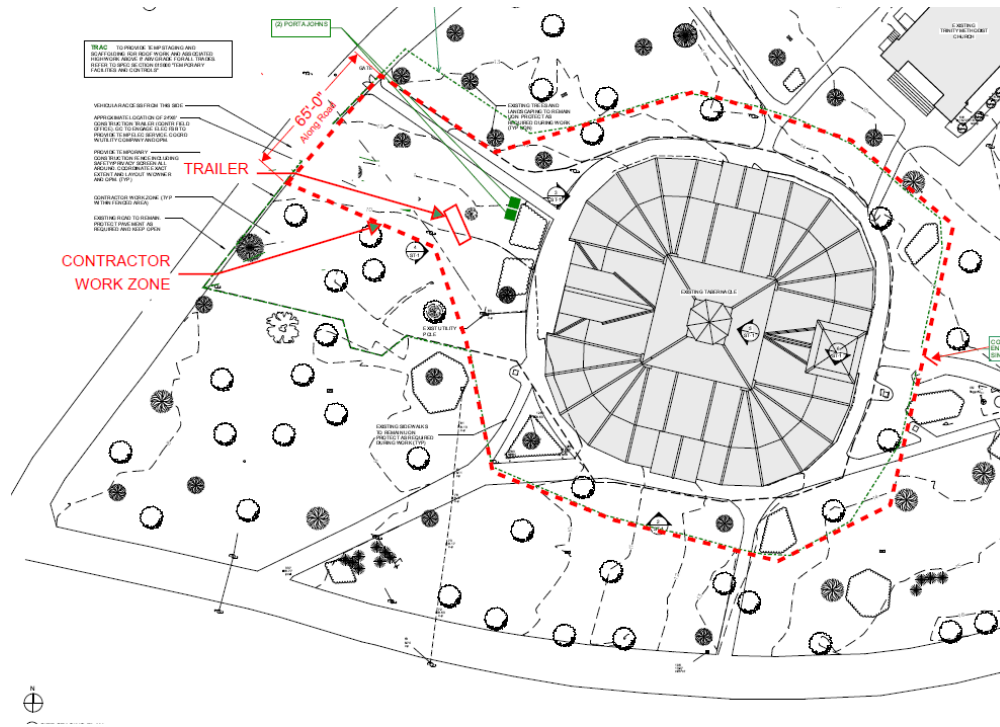

2024

- May 17: "Substantial Completion" of project due per contract
- May 31: Last day available for construction work, with limited exceptions
- June 9: MVRHS Graduation (tentative)

Site Area / Work Zone

A revised site plan has been provided by the general contractor, which reduces the green space included within the work zone inside Trinity Park. The construction management trailer will be located within this space, as well as temporary restroom facilities for the construction crew only. There will be no public restrooms available in the off season, which is consistent with normal MVCMA operations.

Additional space along Dukes County Ave will provide fenced in space for painting work to take place, as well as for the placement of dumpsters and material storage.

Roof Tiles

The roof tiles being used for this project are “Europa Underlay PST-200.5-0 Fiber Cement Corrugated Roofing” in the color of Natural Gray, and which are being produced by Landini SpA (Italy). These tiles were selected to maintain as similar an appearance to the existing tiles as possible. *A sample is available to be seen in the MVCMA Office.*

This photo is indicative of the shape and style of the roofing tile, NOT the color. The color selected is “Natural Gray”.

Sincerely,
The Tabernacle Restoration Committee

MVCMA Board Members: Eliza Curtis, Co-Chair, Andrew Patch, Co-Chair, Trish Hahn, Scott Slarsky
 Non-Board Appointees: Ashley Khattach, Dawn McKenna
